Annexes	
A (June 2001) Additional list of occupational pension schemes and associated employer names for population identification	

There is now a dedicated team within the FSA with responsibility for the FSAVC review.

Enquiries and comments about the FSAVC review should be made to:

FSAVC Review Team
11th Floor
The Financial Services Authority
25 The North Colonnade
Canary Wharf
London E14 5HS

Telephone: 020 7676 3060

E-mail: fsavc.review@fsa.gov.uk

Note to the guidance: *This section of the Model Guidance supplements the FSAVC Review Model Guidance and its updates issued by the Financial Services Authority as follows:*

- *Sections 1 to 10 issued in May 2000;*
- *Section 11 issued in August 2000;*
- *Section 12 issued in March 2001; and*
- *Section 11 re-issued in May 2001.*

13 Further target dates

Additional population identification

- 13.1 Firms are required to take all reasonable steps to establish any additions to their review population (as described in paragraphs 3.3 to 3.3.6) promptly and in any case in accordance with the timescales prescribed by their regulator.
- 13.1.1 Product provider firms, in addition to establishing any additions to their review population (as described in paragraphs 3.3 to 3.3.6), are required to establish any additions to the review population from among the FSAVC business accepted from IFA firms (or other intermediary firms) as described in paragraph 3.1.9.
- 13.1.2 The following dates are outer dates. Firms regulated by the FSA, IMRO, PIA and the SFA are expected to take all reasonable steps to complete their population identification as quickly as possible consistent with meeting the standards contained in this guidance. Other regulators may wish to revise the procedure and timescale required for population identification, consistent with the outer time limits for the review.
- 13.1.3 Firms regulated by the FSA, IMRO, PIA and the SFA, which advised on or arranged FSAVCs including sales by predecessor firms, during the period 29 April 1988 to 15 August 1999 are required to complete their additional population identification exercise **on or before 31 August 2001**.
- 13.1.4 In exceptional circumstances the FSA may agree to extend the deadline. Firms should in such cases make a written submission which must include the following details:
- A detailed project plan for completing population identification; together with
 - A concise explanation of the firm's particular difficulties;
 - Details of the proposed action to mitigate those difficulties;

- Details of the number of cases involved (or best estimate if accurate figures are not available);
 - Key milestones;
 - Proposed timescale for additional population identification; and
 - Proposed deployment of resources, including the number and experience of staff involved.
- 13.1.5 Any such submission must be received by the FSA **on or before 31 July 2001** and should be addressed to the FSAVC Review Team, 11th Floor, 25 The North Colonnade, Canary Wharf, London E14 5HS.
- 13.1.6 **Firms regulated by the FSA, IMRO, PIA and the SFA should however continue work to complete the review population identification process within the timescales set out in this guidance even where they submit an application for an extension of time.**

Additional direct invitation mailing

- 13.2 **Firms are required to take all reasonable steps to complete the direct invitation mailing (as described in section 4) promptly.**
- 13.2.1 Firms regulated by the FSA, IMRO, PIA and the SFA must commence the direct invitation mailing to investors as soon as practicable after completion of population identification. In any event, firms are required to commence mailing to every relevant investor **on or before 21 September 2001**. Firms may phase their mailings (as described in paragraph 13.2.3) but must not begin to mail any group of investors during August.
- Note to the guidance: The FSA is concerned that significant numbers of investors may not be available to respond to mailings sent during August.*
- 13.2.2 Other regulators may wish to revise requirements for direct invitation mailing timescales, consistent with this guidance.
- 13.2.3 Firms regulated by the FSA, IMRO, PIA and the SFA may tranche the mailing activity where this might reasonably and demonstrably be expected to allow them to deal with the responses more efficiently. Firms not doing this should not delay their mailing, but should proceed to complete the direct invitation mailing as quickly as possible consistent with meeting the standards contained in this guidance. Firms must not, however, begin to mail direct invitation material during August. Where the initial mailing is sent before August, reminders should still be sent according to the timescales set out in paragraph 4.3.3, even where this means sending a reminder letter during August.

- 13.2.4 Firms regulated by the FSA, IMRO, PIA and the SFA that decide to tranche the direct invitation mailing activity in accordance with paragraph 13.2.3, should document the reasons for this decision, along with full details of their intended mailing strategy, within their project plan as specified in section 10 of the Model Guidance.

Note to the guidance: *Firms are reminded that they should continue to deal with priority cases in accordance with paragraphs 9.3 to 9.3.3 of the guidance.*

Target completion dates

- 13.3 **Firms are required to review priority cases within the timescales prescribed by their regulator.**
- 13.3.1 This update **replaces entirely** paragraphs 9.6 to 9.6.2 of the FSAVC Review Model Guidance issued in May 2000.
- 13.3.2 In the case of firms regulated by the FSA, IMRO, PIA and the SFA, firms are required to take all reasonable steps to complete their reviews promptly and in any event are required to have completed the review of all FSAVCs in accordance with the target dates set out below.
- 13.3.3 **By 30 June 2002 90%** of investors in the review population that are the responsibility of firms regulated by the FSA, IMRO, PIA and the SFA must have been sent either:
- An offer of redress; or
 - A letter explaining that redress is not due where:
 - the case is found to be materially compliant; or
 - despite loss and non-compliance there is no causal link; or
 - there is no loss.
- 13.3.4 **By 31 December 2002 all** investors in the review population that are the responsibility of firms regulated by the FSA, IMRO, PIA and the SFA must have been sent either:
- An offer of redress; or
 - A letter explaining that redress is not due where:
 - the case is found to be materially compliant; or
 - despite loss and non-compliance there is no causal link; or
 - there is no loss.

- 13.3.5 The targets of 30 June 2002 (for 90% of cases) and 31 December 2002 (for all cases) are outer dates and firms which can proceed to complete their reviews ahead of these deadlines will be expected to do so.

Note to the guidance: Firms are reminded that they should implement redress promptly in accordance with paragraph 9.7 of the guidance.

Reporting requirements

13.4 **Firms are required to report the results of their additional population identification work carried out in accordance with sections 3, 4 and 13 of the Model Guidance.**

- 13.4.1 Product provider firms are required to include any additions to the review population from among the FSAVC business accepted from IFA firms (or other intermediary firms) as described in paragraph 3.1.9.
- 13.4.2 Firms are required to use the appropriate return as detailed in paragraphs 13.4.3 to 13.4.6 in respect of any additional FSAVC cases that fall within their review population as a result of their additional population identification work. Firms are required to ensure that they use this return **only in respect of these additional cases.**
- 13.4.3 Firms with no additional cases to add to their review population as a result of their additional population identification work need not report the fact.

Note to the guidance: Firms are reminded that they should continue to report any further requests for review received as described in FSAVC Review Bulletin 2.

13.4.4 **One or more additional FSAVCs within the review population**

Firms regulated by the FSA, IMRO, PIA and the SFA with one or more additional FSAVC cases that fall within the review population are required to report details of those cases.

- 13.4.5 Firms with **less than 10 FSAVC cases** in the review population **in total** have the choice to either:
- a) Complete and return on disc or tape a template provided by the FSA which can be downloaded from the FSA website;
 - b) Complete the paper return in Annex G (IFA firms) or Annex H (product provider firms).
- 13.4.6 Firms with **10 or more, but less than 50 FSAVC cases** in the review population **in total** have the choice to either:

- a) Submit the required data on disc or tape in accordance with the specified format detailed in Annex I (IFA firms) or Annex J (product provider firms);
- b) Complete and return on disc or tape a template provided by the FSA which can be downloaded from the FSA website;
- c) Complete the paper return in Annex G (IFA firms) or Annex H (product provider firms).

Note to the guidance: *The templates for reporting additional cases can be found under 'FSAVC review/Information for firms/Templates for reporting new cases'*

- 13.4.7 Firms with **50 or more FSAVC cases** in the review population **in total** are required to submit the required data on disc or tape in accordance with the specified format detailed in Annex I (IFA firms) or Annex J (product provider firms).
- 13.4.8 Firms reporting **additional** cases that fall within the review population following the steps described in paragraphs 3.3 to 3.3.6 should submit the information in the same format as their original population identification return, except for the following three changes:
- 13.4.9 Firms are required to report the number of additional review population cases contained in the additional population identification return rather than the review population in total. This figure will be reported at position V (in Annex G and H) or position 6 (in Annex I and J). However the sales population figure reported should continue to be the **total** sales population.
- 13.4.10 Firms are required to include the data set out in the D0 and D1 records, as specified in Annex I (IFA firms) or Annex J (product provider firms). Firms need not submit any data outlined in the D2 record.

Note to the guidance: *Firms should not submit a blank D2 record.*

- 13.4.11 Firms are required to ensure that the details of any occupational pension scheme submitted correspond **exactly** to the spelling and typography of the scheme names listed in Annex A (June 2001), where the occupational pension scheme is known and it is reasonable to consider that it corresponds exactly to an occupational pension scheme listed in Annex A (June 2001). For example, where the scheme name has been recorded as 'The Bausch & Lamb Pension Plan' or 'The Bausch and Lomb Pension Plan', firms are required to submit the details as 'Bausch & Lomb Pension Plan, The'. But, for example, if the only record that the firm has is of 'B & L Pension Plan' and the firm has concluded that despite some uncertainty it should add this case to its review population on that basis, then the record submitted should be 'B & L Pension Plan'.

- 13.4.12 The reporting template mentioned in 13.4.5(a) and 13.4.6(b) is available on the FSA website at www.fsa.gov.uk/fsavc-review.

Note to the guidance: Firms are reminded that these Annexes should be completed in respect of additional cases that fall within the review population only.

- 13.4.13 Firms are required to submit the required data to:

FSAVC Review Team
11th Floor
The Financial Services Authority
25 The North Colonnade
Canary Wharf
London E14 5HS

Additional review population reporting timescales

- 13.5 **Firms are required to report the details of their additional review population (identified in accordance with the procedures described in paragraphs 3.3 to 3.3.6) promptly, and in any case in accordance with the timescales prescribed by their regulator.**
- 13.5.1 Firms regulated by the FSA, IMRO, PIA and the SFA are expected to take all reasonable steps to report as quickly as possible consistent with meeting the standards contained in this guidance. Other regulators may wish to revise the procedure and timescale required, consistent with the outer time limits for the review.
- 13.5.2 Firms regulated by the FSA, IMRO, PIA and the SFA are required to report details of their additional review population **on or before 1 September 2001**.
- 13.5.3 Some firms may have a later deadline for population identification agreed in writing by the FSA in accordance with the provisions in paragraph 13.1.4, in which case the later agreed deadline will apply.

Ongoing progress reporting

- 13.6 **The details supplied in the additional population identification return will be used as the basis of ongoing progress reporting in the same way as the initial population identification return.**

Additional list of occupational pension schemes and associated employer names for population identification

The following lists of occupational pension schemes and associated employer names are to be used in conjunction with section 3 of the guidance. Two lists have been provided here: all occupational pension scheme names and all employer names.

These additional lists supplement Annex A of the FSAVC Review Model Guidance issued in May 2000. The June 2001 and May 2000 lists have been presented separately for ease of use.

Any scheme names or employers' names prefixed by the word 'The' are listed with the scheme or company name first, followed by, 'The'. For example 'The NCR Pension Plan' is listed as 'NCR Pension Plan, The'. Otherwise, the lists are in alphabetical order.

This data is also available electronically on the FSA website at <http://www.fsa.gov.uk/fsavc-review>. The website includes a:

- List of occupational pension schemes; and a
- List of employers.

Facilities have been provided on the website to view all employers associated with a particular scheme. It also provides a facility to search through the employer list.

The FSA is grateful to all those who have contributed to the compilation of this list including: occupational scheme trustees/administrators and their advisers; regulated firms; and the Occupational Pensions Regulatory Authority.
